

How to make a flower from a recycled plastic bottle

Flowers created from recycled bottles brighten up the fence at Little Explorers Day Nursery in Rochester, Kent.

Materials

- Empty 2 litre plastic bottles
- White PVA glue
- Scissors
- Waterproof marker pens
- Acrylic paints
- Paint brushes
- Fine Sandpaper
- Stickers

Instructions:

1. Cut the plastic bottle one-third of the way down from the top.
2. Sand the bottle using fine sandpaper
3. Mark at least 5 "petals" using a waterproof marker.
4. Cut along the lines to form "petals".
5. Coat with a layer of white glue and let dry.
6. Paint and decorate the petals using acrylic paints, waterproof markers, stickers and glitter.
7. Poke a small hole through the bottle cap and screw the cap back onto the bottle.
8. Put a nail or screw through the hole to fix the flower to your fence or wall
